CAREER OBJECTIVE

Information Technology undergraduate with strong problem-solving skills and hands-on experience in Java, Reach and Data Structures & Algorithms. Solved 600+ coding problems and developed responsive web applications during internships. Passionate about software development and contribute to innovative engineering terms.

EDUCATION

Easwari Engineering College, Information Technology	2023-2027
Current CGPA 9.0	
A V L Matriculation Higher Secondary School, Grade 12	Graduation 2021
Percentage: 91.67	

TECHNICAL SKILLS

- **Programming Language** ----- Java (Intermediate), Python (Basic), Java Script
- **Frontend & Frameworks** ----- HTML, CSS, React, Express
- **Database & Platforms** ----- SQL, Mongo DB, Visual Studio Code, Git Hub
- **Productivity Software Skills** ----- MS Word, MS Power Point, MS Excel
- **Other Skills** ----- Time Management, Team Work, Communication

PROFESSIONAL EXPERIENCE

1. 1M1B GREEN INTERNSHIP

1M1B Green Skills Academy (in partnership with AICTE Salesforce) | Jul–Aug 2025 (5 weeks)

- Designed a Figma-based prototype – “Green Habit Tracker”, integrating UI/UX design principles to promote eco-friendly user behavior.
- Conducted UX research and user flow mapping to improve usability and interaction.

2. SOFTRATE INTERN

ROLE: Full Stack Web Development | Dec 2025 - Jan 2026 (5 weeks)

- Developed a personal portfolio website using HTML, CSS, and JavaScript to showcase projects, skills with a responsive and user-friendly design.
- Designed and built a construction company website using React and Tailwind CSS, responsive design principles

PROJECT

- 1. Green Habit Tracker:** [Prototype Video](#) **Tech Stack:** Figma, UI/UX, Wire framing, Prototyping
 - A visually engaging and easy-to-navigate prototype that motivates users to track green habits daily while maintaining long-term engagement through feedback and rewards.
 - The final prototype demonstrates strong skills in UI/UX design, interaction design, information architecture, and product thinking, showcasing the ability to design user-centred digital experiences from concept to execution.
- 2. Construction Website:** [View Website](#) **Tech Stack:** React, CSS, Java Script
 - A fully functional React Native application styled with CSS, featuring a clean and easy-to-navigate interface, highlighting the company’s home page, project portfolio, services offered, and other key information.
 - The final application demonstrates proficiency in mobile development with React Native, responsive UI design using CSS, effective information architecture, and interactive navigation, illustrating the ability to create professional, user centred digital solutions for the construction industry.
